The front exterior entryway features a recessed lobby and double front doors.

Both north and south elevations do not show any window openings. The building which is basically rectangular is vacant with substantial fire damage to the interior. Date of Construction: Circa 1850 Source of Date: CHAP (Commission on Historic & Architectural Preservation)

Date(s) of Alteration(s):

Has building been moved? ☐ yes ☒ no. If so, when?

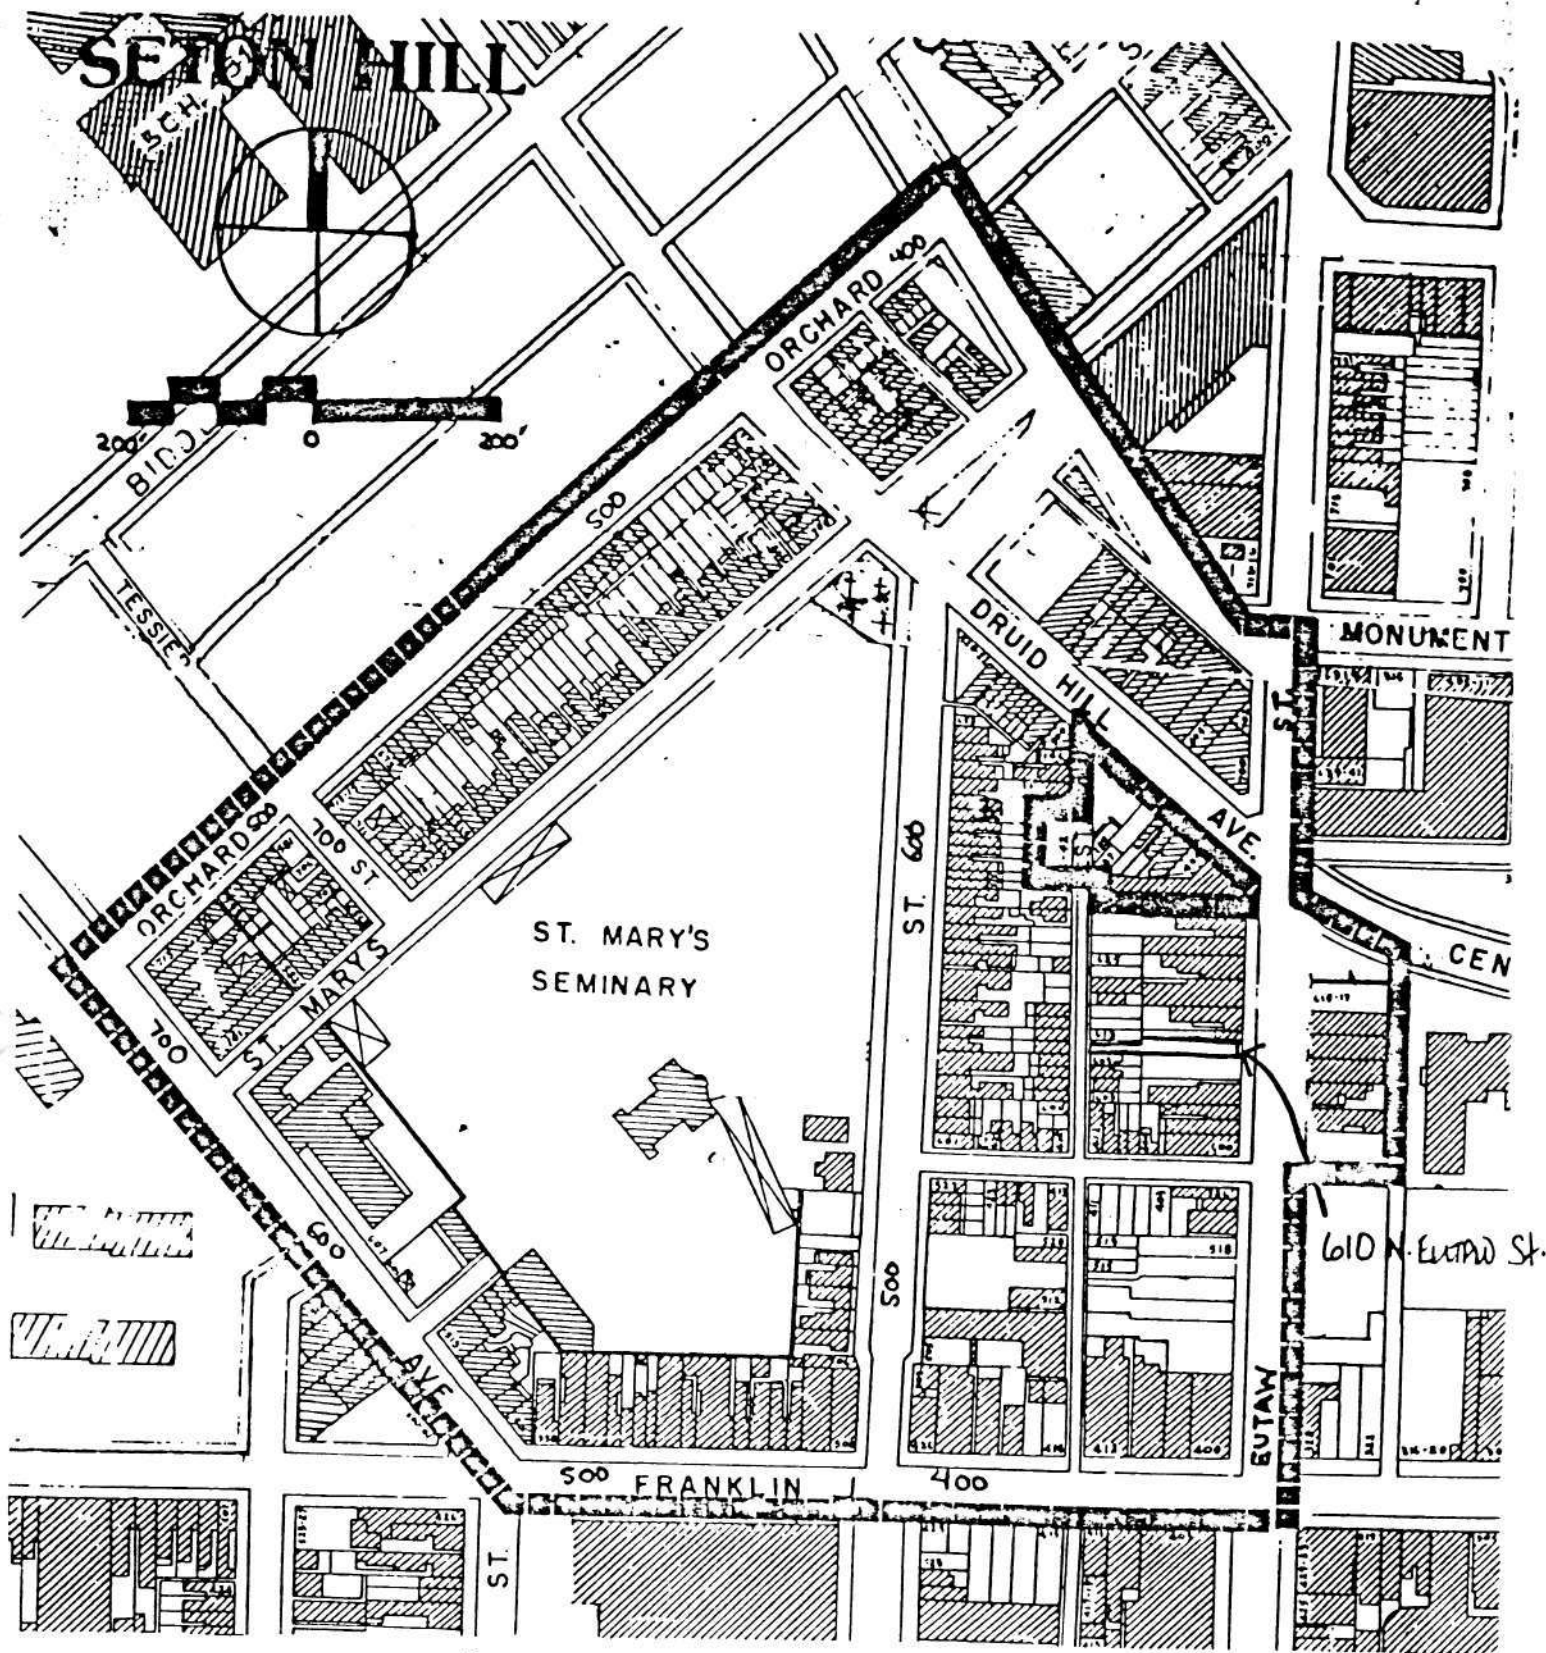

6. Statement of significance: The building represents an intact grouping of architecturally significant residential and commercial structures built between 1840 and 1900 in the Seton Hill Community of Baltimore City., Seton Hill is architecturally significant as one of Baltimore's earliest intact rowhouse neighborhoods. Historically, the area is linked to Saint Mary's Seminary, the first Catholic Seminary in the United States and Elizabeth Ann Seton, the first American canonized Saint. Mother Seton was also the founder of the Sisters of Charity, the first order of nuns founded in this country. While most of the designers of housing in Seton Hill are unknown, the master architect, Maximillian Godefrey, was responsible for the Saint Mary's Seminary Chapel. This building is recognized to be the first significant Gothic Revival church built in America. The small houses of Seton Hill, the juxtaposition of commercial and residential buildings along main thoroughfares, the changes and alteration that individual buildings and the community in general have gone through in the early twentieth century and the community's association with the early nineteenth century development of the Catholic Church in Baltimore has yielded important information on the growth and change of local neighborhoods throughout the nineteenth and twentieth centuries.
